I am enclosing a flier which describes our summer Graduate Studies Program. In short, an applicant must be in his or her senior year and planning to enter graduate school following his or her internship, or must be in graduate school at the time he or she submits their application to be eligible for the Program. I am sorry we are not able to help you at this time, but we would be glad to consider you for the summer of 1985 if you plan to enter graduate school that fall. If you wish to be considered for permanent employment, please contact us at least six months prior to your date of availability.

Thank you again for your interest in the Agency and its Programs. Best wishes for continued success in your academic program.

Sincerely,

Robert W. Magee
